Mrs. Cheaney and Mrs. Raymond Ashworth were appointed hostesses for the May meeting.

At the close of the business meeting Mrs. Henderson took charge of the program, her topic being "The Herb Garden."

Records as far back as 5000 B.C. tell of growth and use of herbs. Books on the subject written ~~in the~~ 3000 B.C. by the Chinese and 2000 B.C. by the Egyptians are still in existence. Most houses had a 'still-room' from which the modern term

distillery has been derived and here was kept the herb and book of receipts used in their concoction, and these were handed down from generation to generation. These books with all types of recipes included gave way to the cook book of today.

The first Botany books were books devoted to the study of herb raising.

The discovery of America was due to man's hunt for an easier way to bring back the much prized spices of the Indies.

Mrs Henderson arranged a guessing contest displaying 22 different herbs. Mrs Hubbs guessed the greatest number and received a lovely iris plant as a reward.

Refreshments were served at the close of the meeting.
